About me

Senior full stack engineer with 20+ years of experience building web-based systems. In recent years, I've focused on the TypeScript ecosystem, designing and implementing frontend and backend architectures with React, React Native, and Node.js.

I specialize in scalable system design and maintainable architecture, working confidently across the full stack, from UI and state management to API design, database modeling, and deployment pipelines. With 10 years of fully remote experience, I've contributed to architectural decisions, upheld code quality standards, and mentored developers in distributed teams.

EXPERIENCE

Senior software engineer
Corivo / Travel Connect, jan 2023 - mar 2026

* Core contributor to a TypeScript business platform (React/Next.js, Node.js)
* Participated in architectural planning and technical direction
* Designed and maintained automated test environments
* Integrated CI/CD workflows and containerized development with Docker
* Improved maintainability and test coverage across the codebase
* Conducted code reviews and technical mentoring

Senior software engineer
Men&Mice, sep 2018 - dec 2022

* Developed and maintained a React/TypeScript-based enterprise interface
* Contributed to API layer development and architectural refactoring
* Implemented and followed up on a formal accessibility audit
* Strengthened testing strategy and code quality standards
* Worked in a distributed international engineering team

Senior software engineer
Opex, sep 2013 - aug 2018

* Maintained and extended PHP/MySQL backend systems
* Developed a custom PHP framework used in all projects
* Introduced React and React Native (from 2016) into production systems
* Built and evolved API layers for business-critical services

Various previous experiences
Aranea · Snerpa · Internetið · Valka · Premis, jan 2004 - sep 2013

* PHP-based systems, MySQL databases, JavaScript-heavy frontends
* Developed a CMS at Snerpa that is still used today
* Developed the blog system bloggar.is that Icelanders from a certain era might remember
